

Implementing precision and preventive psychiatry in Europe

21 September 2022, 12:00 – 19:00 CET

Fondation Universitaire Stichting, Rue d'Egmont 11, 1000 Bruxelles

Programme highlights:

- The importance of severe mental disorders research in Europe and globally
- Implementation of precision and preventive psychiatry
- Why is funding needed NOW in this field?

This event is designed to highlight the urgent need to address the lack of parity between mental and physical health in European funding and to aid navigation of barriers to implementation of precision psychiatry.
